

# Exchanging climate views

Christine Garvey

FROM Ocean Grove to global impacts, Christine Garvey has been making a world of difference.

Ms Garvey was one of 100 people selected to take part in a major climate conference in Sydney to gather views on environmental change.

The conference was the world's first global citizen consultation, with results fed back to the Australian Government and world leaders who will meet for the United Nations climate change conference in Copenhagen in December.

"It was a fantastic chance to get information, and share and expand our views," Ms Garvey said.

"We had messages from government ministers saying they were very interested to hear what we had to say, and the commitment is there to take the information to the Copenhagen conference.

"It was a very worthwhile exercise."
